SKILLS

- ❖ **Languages:** JavaScript, Java, C++, HTML, CSS
- ❖ **Frameworks/Libraries:** React, Next.js, Node.js, Express, Tailwind CSS
- ❖ **Databases:** MongoDB, MySQL
- ❖ **Tools:** Git & GitHub, Vercel, Postman, VS Code
- ❖ **Concept:** Data Structures & Algorithms, REST APIs

EDUCATION

- ❖ Bangladesh Institute of Science and Technology, affiliated with the National University, Bangladesh | Computer Science and Engineering
CGPA: 3.1 (Expected Graduation: 2026)
- ❖ Government Keshab Chandra College, Jhenaidah | Science
GPA: 5.00 (2020)
- ❖ Jhenaidah Government High School, Jhenaidah | Science
GPA: 5.00 (2018)

PROJECTS

- ❖ **Portfolio** Github
A modern portfolio website built with **Next.js**, **React**, **Tailwind CSS**, and **Framer Motion**. Organized structure using **Next.js file-system-based** routing. It features **EmailJS** integration for contact form functionality.
- ❖ **PassFort** Github
A simple and secure password manager built using **React**, **Tailwind CSS**, **Express**, **Node.js**, **RESTful APIs**, and **MongoDB**. Allows users to store multiple website credentials securely with features like password visibility toggle, edit, delete, and copy functionality.
- ❖ **Task Manager** Github
A React-based task management application that helps users organize and track their tasks efficiently.
 - Built using **React**, **Tailwind CSS**, and deployed on Vercel
 - Tasks are saved in **localStorage** for data persistence
 - Clean UI with responsive design
- ❖ **Web Music Player** Github
A responsive and interactive web-based music player inspired by Spotify. Users can navigate through music libraries, select songs, and control playback using intuitive controls. Designed for desktop and mobile devices, featuring a sleek and modern UI using **HTML**, **CSS**, and **JavaScript**.
- ❖ **CurrencyXchange** Github
CurrencyXchange is a web-based currency converter that allows users to convert between different currencies in real-time. Built using **HTML**, **CSS**, and **JavaScript**, this project leverages a public **API** to fetch the latest exchange rates.
